

Layouts Choices

You can change the layout and look of your website any time.

1. Click on **Style and Color** link on the left side of your screen. Then, click **Store Layouts**.
2. On the **Layout** menu, you can change the layout of your store by clicking the round button above to the layout you want and then clicking **Apply**. You can also preview a layout before applying it to your site with the Preview button. You'll then choose widgets (shown on next page).
