

Managing & Editing Products

The Big Value Website is our smallest store and has a set product line of about 100 products that can't be changed or switched out.

You can edit your product descriptions, which can help with SEO and page rankings.

1. From the Products menu, click on Products.
2. You'll see all your products listed. You can edit products by clicking the "edit" button

When you upgrade to the eMerchantClub Deluxe website, then you'll have every displayable product offered through one of our drop-shipping warehouses.
