

# Customizing the “New Arrivals” Slider

Menu Access: *Catalog > Products*

Adding Products to the New Arrivals slider on the homepage:

- Identify the product you want to add to the New Arrivals slider.
  - Check the number listed in the “Salable Quantity” column. Choose items that have a lot of stock to prevent promoting products that may be unavailable soon.
- Click the “Edit” link on the far right of the item you want to add.
- You’ll then arrive on the product description page.

# Customizing the “New Arrivals” Slider

Menu Access: Catalog > Products

## Adding Products:

1. In the “Set Product as New From” section:
2. In the first text box, click the calendar icon and choose today’s date
3. In the second box, click the calendar and choose a date in the future (when that date arrives, the product will no longer appear in the New Arrivals slider). We recommend setting it for at least 2 months, but you can choose to set it for a year or even longer!
4. Click the orange “Save” button on the top right.
5. You can then open a new window and visit your store’s homepage. The item should be visible in the slider now.
