

# Product List

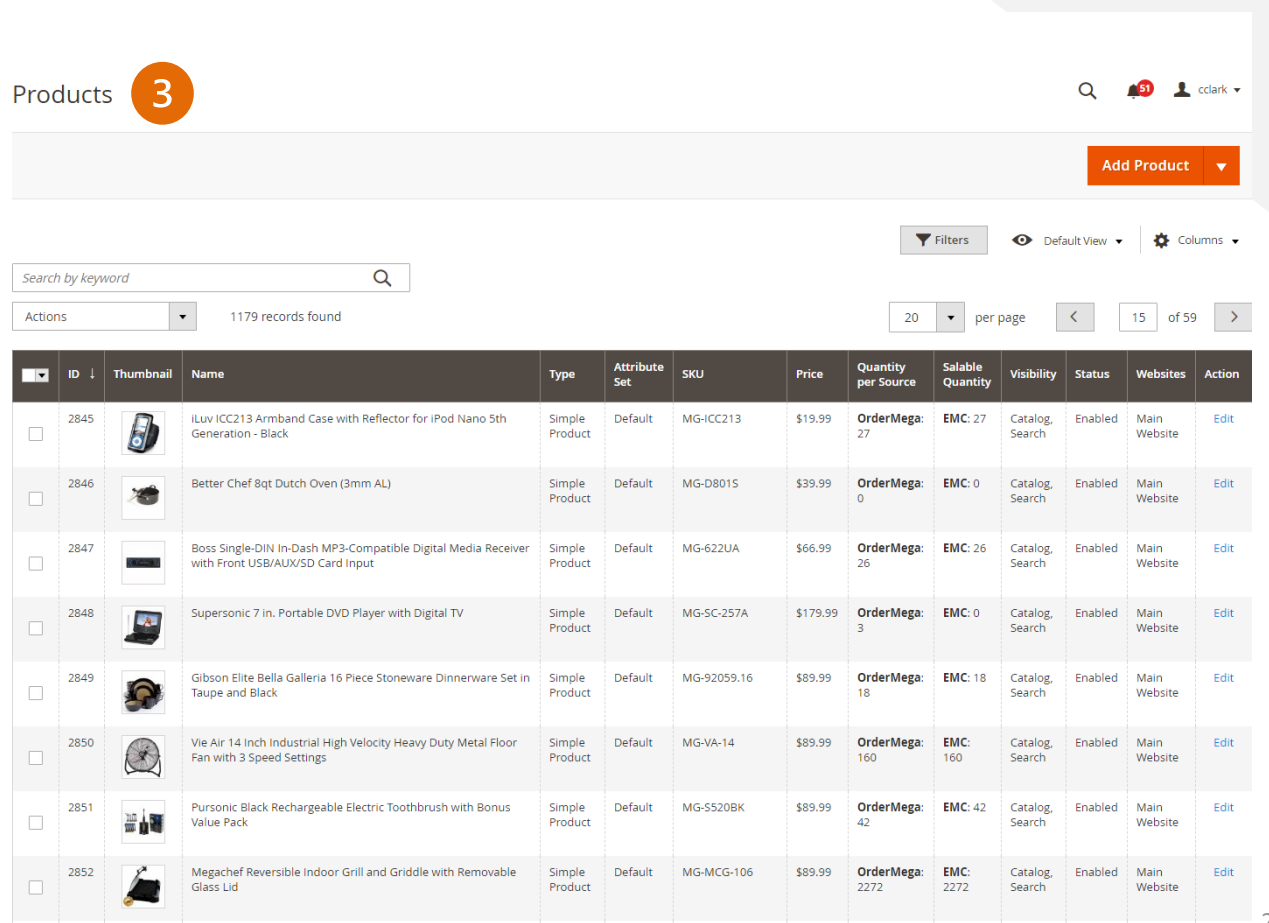

Menu Access: Catalog > Products

You can add you own products, customize product descriptions and set products to appear on the two sliders on your homepage easily.

To access your product lineup:

1. From the **Catalog** menu
2. Choose **Products**
3. You'll arrive on the Products page where you can see all the items available from your chosen warehouse.

For Deluxe and above sites, you will have all products from your chosen warehouse!

# Disable/Enable Products

Menu Access: Catalog > Products

Enabling (making visible on your store) products and disabling (removing from your store) products is easy with your Magento 2 website. Go to the Products list to start (instructions on Page #31).

## Enable or Disable Products:

1. Click the checkbox next to the product you want to add or remove from your store.
2. Click the **Actions** drop-down menu
3. Then select “**Change Status.**”
4. Choose to **Enable** or **Disable** the item.
5. The item status will be updated immediately.

The screenshot shows the Magento 2 Products list interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Customers', 'Content', and 'Reports'. The 'Catalog' menu is selected. The main content area shows a list of products with columns for ID, Thumbnail, Name, Type, Attribute Set, SKU, Price, Quantity per Source, Salable Quantity, Visibility, Status, Websites, and Action. The first product is 'iLuv ICC213 Armband Case with Reflector for iPod Nano 5th Generation - Black'. The 'Actions' dropdown menu is open, showing options: Delete, Change status, Update attributes, Assign Inventory Source, Unassign Inventory Source, and Transfer Inventory To Source. The 'Change status' option is selected, and the 'Disable' option is highlighted. The status of the selected product is updated from 'Enabled' to 'Disabled'.

ID	Thumbnail	Name	Type	Attribute Set	SKU	Price	Quantity per Source	Salable Quantity	Visibility	Status	Websites	Action
