

Store Details

Menu Access: *Store > Configuration > General > General > Store Information*

Your Magento 2 site has a few default store details, however, you have control to customize these details as you see fit. To edit the store details on your site:

To edit your store details:

1. Choose **Stores** from the menu
2. Then choose **Configuration**.
3. Next, choose **General** from the second menu
4. Choose **General**.
5. Under the “**Store Information**” tab, add as much info as you feel comfortable sharing.
6. Then hit the orange **Save Config** button on the top right of the screen.

The screenshot displays the Magento 2 admin interface. On the left, the 'Stores' menu is open, with 'Configuration' highlighted (2) and an arrow pointing to the 'GENERAL' tab in the 'Configuration' section (3). Below 'Configuration', 'General' is selected (4). On the right, the 'Configuration' page is shown with the 'GENERAL' tab active. The 'Store Information' section is expanded, showing fields for Store Name, Store Phone Number, Store Hours of Operation, Country, Region/State, ZIP/Postal Code, City, and Street Address (5). The 'Save Config' button is highlighted in orange (6).

Please remember that any information you put on your website will be accessible to everyone on the internet. We recommend not putting your home address or telephone number.
